

## **ACADEMIC UPDATES FOR JUNE 2024**

Lifesong Harmony Schools: July has been a dynamic and eventful month for the Ministry, characterized by a series of significant activities and achievements. These included mission visits from the Legacy team from the USA, various sports events across the schools, Gap-Year Agriculture entrepreneur programs and Vocational Training Centre practical study areas.

1750+ Children Served Academic Performance: Improvement in Student Academics: There has been a notable improvement in student performance across all grades. Pre-school kids, in particular, have adapted well to the new systems implemented in our 3 schools, leading to a more settled and productive learning environment.

In-House Competitions: Students had the opportunity to participate in various in-house sports activities in our 3 schools, including soccer, netball, and tennis. These activities not only promoted physical fitness but also encouraged teamwork, discipline, and sportsmanship among the students.

## **Gap Year Agriculture & Entrepreneurship Program:**

Gap year students were actively engaged in acquiring basic agricultural skills through a hands-on learning approach. A winter maize harvest project was successfully implemented, providing students with the opportunity to develop entrepreneurial skills. They were involved in the entire process, from planting to harvesting and selling the produce. This initiative not only equipped students with essential agricultural knowledge but also instilled a sense of entrepreneurship and business management.

Students in the Vocational Program

**Vocational Training Centre**: The vocational training program introduced new practical study areas in electrical work and metal fabrication. These additions aim to equip students with valuable technical skills, enhancing their employability and preparing them for diverse career opportunities.

Legacy Team - Mission visit: The Legacy team from the USA conducted a highly engaging and intensive one-week mission visit. The program included a diverse range of activities such as games, art, music, and Bible teachings.

**Prayer focus**: Pray for the children to recover swiftly from malaria, complete healing and relief from pain and discomfort.
