

BRINGING JOY & PURPOSE TO ORPHANS

ACADEMIC UPDATES FOR JULY 2025

Introduction: July marked strong progress across the Lifesong Harmony Schools. Students achieved above-average results in school-based assessments, particularly in practical and applied lessons, while actively engaging in sports and discipleship programs. Staff development in biblical counselling and the Gap Year program advanced well, with competency-based evaluations confirming that students are applying their learning in real-life contexts—living out our Lifesong commitment to holistic education.

Sports Activities & other Extra Activities: Lifesong students actively participated in interschool extracurricular activities and district-level Olympic competitions. Events included athletics, netball, boys' and girls' soccer, as well as indoor competitions such as debate. Our schools excelled, earning first place in both boys' and girls' soccer, the 400-meter race, and relays—bringing home several trophies. These achievements reflect the well-rounded nature of our programs and our strong emphasis on teamwork, discipline, and perseverance.

Spiritual Update: Spiritual development continues to be central to Lifesong's mission. In July, three students joyfully took the important step of baptism, publicly declaring their commitment to Christ. This milestone is a testament to the intentional spiritual mentoring and discipleship woven throughout our programs. We invite you to join us in prayer for these students as they grow in their faith:

- Sarah – 15 years old (striped shirt)
- Susan – 15 years old (white-dotted shirt)
- Pauline – 17 years old (black shirt)

Community and Church Partnerships–Stimulation Activities: In alignment with our long-term vision, Lifesong has launched a Community Stimulation Program to engage churches and local communities in preparation for the 2026 preschool intake. This initiative aims to:

- Promote discipleship within the community.
 - Strengthen collaboration with local church partners.
 - Identify and support orphans & vulnerable children.
- Engage current interns as living examples of transformation to inspire families and communities.

This initiative reflects our strategic approach to combining education with community outreach and holistic child development. Over 400 have been captured.

Gap-Year Program: The 53 Lifesong Gap-Year students continue to make steady progress in their discipleship and work experience, integrated with the hands-on training provided through Taveta Vocational programs for 2025. They are developing practical, employable skills that will be formally certified at the end of the year. For those not pursuing higher education, this program offers a direct pathway into fields where they have gained experience, promoting economic stability while firmly grounding their work in Christian values.

Professional Development for Staff: Approximately 150 staff members—including chaplains, caregivers, teachers, and leadership—successfully completed Module 2 of Biblical Counseling training, focusing on the principles, processes, and practices of faith-based counseling. This training enhances staff capacity to provide effective emotional and spiritual support to students while simultaneously strengthening their professional competencies in child and family care.

A Story of God's Faithfulness: We celebrate with joy the success of Brian, who was recently awarded an F-1 visa to pursue a degree in Biological Sciences at The Master's University in California, USA. This milestone is a powerful testimony of God's provision and a reflection of the long-term impact of Lifesong's mission in creating hope and opportunities for children who once faced uncertain futures.

Praise Item: We thank God for the children who have given their lives to Christ. Our mandate is to disciple them through sound biblical counselling so they may grow strong in faith and obedience to God's Word.
